

TCM Forklift Parts

Forklift trucks are an important player in the material handling field of every global business. Transporting industrial goods takes place each and every day on our hectic world. Initially innovated as industrial vehicles in the 1930s in the United States of America, lift trucks gained recognition following World War II in the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machines spread internationally.

In the year 1949, founded by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Now the company is simply called TCM Corporation. Over the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation in the industry. TCM began building lift truck manufacturing sites outside of Japan in the 1980s and is now engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

With over 50 years of accumulated technology and expertise, TCM has been proudly manufacturing various models of industrial trucks, making their models recognizable all over the world. With an energetic and strong employees, TCM has been able to constantly work towards becoming a future leading material handling business.
